Property	Value	Unit
Name	G29D14 V5	
Version	2025_11	
Type	Transmitter	
Short description?	A reliable, lightweight transmitter with more then 14 days	
Weight	≤ 0.29	g
Runtime	> 14	days
Transmission power	~ 200	µW
Pulse length	~ 18	ms
BPM - pulse distance	~ 60 BPM or 1s	
Frequencies	148, 150 (other upon request)	MHz
Min. animal weight*	≥ 5.9	g
Dimensions	10.6 x 6 x 3.6	mm
Length of aerial	160	mm
Diameter of aerial	0.2	mm
Shorter aerial	possible, loss of detection range	
Activation	cut wire	
Temperature range	from -20 to + 60	°C
Storage	1 year with reduced runtime	
Rechargeable	no	
Replaceable battery	by manufacturer	
Colour	black (other colours aviable on request)	
Waterproof	IP4	
Attachment	glued	
Used for	bats, reptiles, birds, (list not complete)	
Technical drawing [Units in mm]		
Picture		

*according to the 5%-rule including 5 mg of skin glue
